The "Harmonious Democracy" at Loggerheads

Telling the Truth about each other.

The different factions of the Waldo democracy came to an open fight at their County Convention at Belfast on the 21st ult. Smart of the Custom House having got possession of the Convention and controlled all the nominations the Belfast Journal the organ of the anti custom house section, denounces the whole concern in a sharply written leader of three columns and in several other vigorous articles—ridiculing some of the candidates, and exposing the subserviency of most of them to the Custom house clique

It seems that Dickerson and his friends proposed as a measure of compromise and harmony that one Senatorial candidate should be taken from each of the leading elements of the party viz the Custom House anti Custom House and Straight Whig elements—and that *each section should recommend its man* Smart and his managers rejected the last clause of the resolution and proceeded to nominate to suit themselves—ostensibly taking one man from each section but in mockery of the proposition of the Dickerson party nominating as *their* man one who having been formerly a Dickerson man is now the most obnoxious to them of any one in the whole county, viz David Boody of Jackson Of him the Journal says

To be sure this Boody with a full knowledge of the collector s course, signed and circulated a petition last March to the effect that he was unworthy of the confidence of Mr Buchanan and that the highest interest of the democratic party required his removal But Mr Boody knows for he has repeatedly told the story that long before the state convention Collector Smart offered to go for his nomination for senator if he would come over to his interests *Presto, change* Confident that nobody else would ever think of making such a suggestion to him Boody becomes inflated with Smart s gas gets elected delegate to the State convention under the pretext that he is opposed to Smart, votes to make Smart governor at Portland and now turns up, through Smart s influence as a democratic candidate for senator in the anti Smart interest!!

Of another of the Senatorial candidates, the Journal says

Mr Milliken, of Burnham, would undoubtedly make a very respectable senator For his reputation, however, and for the good of the party, we hope he will relieve himself from the imputation cast upon him by a delegate at Portland, *of having voted double for Mr. Smart for Governor*

The Journal significantly says, in closing its leader

After the proposition for harmony was rejected we observed that *sixty delegates refused to vote* We regret this state of feeling because we recognise in these delegates the bone and sinew, the life blood that have upheld and invigorated the national democracy of the county the past twenty years, they now constitute its 'Life Guard It was painful to hear old democrats, and especially those who had acted with Mr Smart up to noon of last Saturday, express their disgust at his doings, and declare that THEY WOULD NEVER ATTEND ANOTHER DEMOCRATIC CONVENTION

The Journal *did not put up the nominations* last week, but denounced the whole proceeding as one in which "honest democrats were deceived and outraged Of the resolutions (reported by Smart) the Journal, without publishing them sarcastically says

The first goes for the harmony of the gag, and for compromise on the basis of thrusting a man upon the democracy as candidate, upon the qualification of being the most obnoxious to the democrats compromised with The second is in favor of an immediate revival of business The third is upon the "millingtary The fourth is in favor of the *Magna Charta* —(Historical 1216—Runnimede see *passim*)—The rest are good resolutions enough

The other candidate for Senator is Edward Cushing of Camden, (the accommodating and gentlemanly Clerk of the steamer Daniel Webster) He is too clever a fellow and too much of a man to run with such a set as now use his name to help their ticket He takes very little part in politics and we are satisfied does not sympathize with the border ruffian and pro slavery principles of the party which seeks to help itself by his personal popularity The Journal says nothing against him and we presume he will have all the votes thrown by the different sections of the party The quarrel however is so bitter that the anti Smart wing will rejoice in the defeat of the ticket

The Journal exposes the men who controlled the Convention as follows

The democrats at large have a right to know and shall know who trampled this measure of peace and conciliation in the dust and voted in effect that they should not have union in the party and THAT THE REPUBLICAN PARTY SHOULD AGAIN TRIUMPH IN SEPTEMBER We subjoin the names of the master spirits in the work, as follows

Here follows a list of Smart and his Custom House officers and others receiving salaries amounting to $7 690]

These are the men and such is the *material* they have employed to accomplish this work Ever since the election of Mr Buchanan they have disbursed the money they have been permitted to draw from the United States Treasury in hiring agents to traverse the county and stand on the corners of the streets to array democrats against each other and to pack caucuses with the instruments of their venality for the election of delegates to the State County and senatorial conventions

We have here from the best democratic authority an exposition of the character of the democratic leaders of the present day, and an open statement of the way in which they use the people s money to carry out their own selfish and corrupt schemes

WILL THE VOTERS OF MAINE SUSTAIN THE CANDIDATES OF SUCH A PARTY AS THIS?

War in another Quarter.

The Democracy of Aroostook is also in a distracted and belligerent state The Cary party having at length got the Madigan faction under in the election of County delegates forthwith resolved as follows in the Convention recently held at Houlton

Resolved That the Democracy of the county of Aroostook the only county in the State which gave a Democratic majority in 1856, respectfully claim the right to be consulted and to be heard in the matter of Executive appointments within their limits, *and outside politicians who attempt by bargain and sale or otherwise to dictate or control our affairs, or any aspirant who seeks to obtain place by their influence* are equally the subjects of our disapproval

Resolved That the Collector of Passamaquoddy in declining an expression of the wishes of the democracy in selecting deputy collectors in this section of the District and thrusting upon us James C Madigan and A P Wellington—men with Republican alliances and proclivities who are thereby politically obnoxious to the party—has shown himself unworthy and unfit for the position he holds and we believe the welfare of the party and the public service *demands his removal*

Another resolve demands the appointment of Isaac W Tabor as his successor

Collector Burns does not seem frightened by this demonstration but denounces the 'Caryites, we understand, as warmly as they denounce him, and maintains that no good democrat is bound to support their nominations notwithstanding they were made in *regular* County Convention The upshot of the whole affair will probably be a Republican Senator from Aroostook

Thus we see that the democratic party, at the very time when its organs are flippantly claiming a great improvement in its 'prospects is in fact rent with internal feuds and the bitterest dissensions among its leaders, and has scarcely vitality enough to resist the action of these internal fires which threaten to explode its whole organization

THE MISSOURI FRAUD The Missouri Democrat is beginning to publish the evidences of the fraud which is being perpetrated in Missouri to secure the election of Stewart, Democrat The *official* returns of the County of Atchison are set down by the Democratic presses as follows Stewart 170, Rollins 125—Stewart s majority 45 The Democrat has received a letter from an old correspondent, a resident of that county, enclosing the vote taken from the poll books and it stands there recorded just as originally published—that is, Stewart 148, Rollins 118, or only 30 majority for the former We shall probably hear similar accounts from other counties, the official returns from which have been kept back for fraudulent purposes.

The U S. Convention of Universalists will meet in Chicago, Ill., on the 15th of September. Tickets out and back can be obtained in Boston for $25

A Few Words more in Reply.

The Union does not like the Whig as an expounder of the Constitution, but we perceive little in its article of Monday to which we need refer, but this little is indeed notable, as well as novel Referring to our remark that "by the federal Constitution *citizens of the several States are citizens of the United States*, it says—

'Now the above italicised clause is not in the Constitution of the United States, and there is nothing that approximates to it It is only *another* of the Whig s interpolations An alien, by three months residence in Illinois, may become a full citizen of that State but does he therefore become a citizen of the United States? Will the Whig answer this question? If it cannot do it *affirmatively*, then what becomes of its Constitutional forgery—"by the Federal Constitution *citizens of the several States are citizens of the United States*?"

The Union would have its readers understand that we used the language referred to as a quotation We did no such thing We stated the effect of the Constitution, and we repeat emphatically that we stated it truly The Constitution provides that "The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States' Does the Union deny this? The Supreme Court of the United States has decided that the effect of this language is, by necessary implication, to make the citizens of the several States citizens of the United States Does the Union deny this? Then is it not true precisely as we said, that by the Federal Constitution—that is, by virtue of it, or by the effect of it—citizens of the several States are citizens of the United States?

"An alien, by three months residence in Illinois, may, says the Union, 'become a citizen of that State This is news to us By the Constitution of that State, white male *residents of* ONE YEAR within the State, over twenty one years old, are voters And under this provision it is held that aliens, although they may not be *citizens* of the State, are entitled to the elective franchise The alien by being made a voter by a State does not thereby become a citizen of the State, or of the United States

Where did the Union learn that an alien by three months residence in Illinois becomes a full citizen of that State? We think our learned contemporary had something to say of our ignorance

The Union further says 'The Federal Constitution neither recognizes nor repudiates the *right* of a State to declare who shall be citizens The Supreme Court of the United States has decided otherwise

But why have any controversy with the Union on this subject? for it agrees, after all, with us and disagrees with Judge Hathaway, as we gather from the following

In this concluding sentence of the Whig s article we most heartily concur viz We hold that the right of each State to declare who may be *its* citizens cannot be restricted by the laws or usages of any other State

If the Union agrees to this as it says it does, it admits the right of Maine to declare a free colored person of African descent a citizen of this State, whether his ancestors were held as slaves or not in any other State Judge Hathaway, on the contrary, holds that it is not competent for Maine to make a citizen of such a person if his ancestors were held as slaves in one of the States, so that the right of Maine is limited in this case by the fact that the law of a slave State attached to his ancestors and reduced them to slavery

WASHINGTON COUNTY REPUBLICAN CONVENTION —The Republicans of Washington county held their Convention at Machias, on the 25th ult, and made the following nominations

Senators—Charles I Ring, Lubec, and Geo W Dyer Calais

Register of Deeds—James C Adams, Cherryfield

Treasurer—Ignatius Sargent, Machias

County Commissioner—John Kilby, Dennysville

The Convention was very fully attended, and the nominations were made with entire harmony indeed with unanimity Hon A K P Wallace, of Milbridge, one of the Senators of last year, declined a re nomination

THE CASE OF GOV ROBINSON Judge Cato charged strongly against Gov Robinson, but the jury acquitted him They were at first divided, but they got tired of staying out with no whiskey, and finally, those for a conviction submitted

They were all pro slavery men, and were at first 10 for conviction to 2 for acquittal We see therefore, that there was some virtue in thirst

THE POETICAL WORKS OF LEIGH HUNT Now first entirely collected, revised by himself, and Edited with an introduction by J S Adams Lee Complete in two volumes—Boston Ticknor & Fields, 1857

We have here two more volumes of Ticknor & Fields beautiful "Blue and Gold series As stated in the title, this is the first complete collection of the poetical Works of Leigh Hunt, and it is rendered still more interesting and valuable by Mr Lee s Literary and Critical Introduction, and by an original letter to the Editor from the author

Mr Hunt, one of the last of the Poets of his age who are still living, was born in England of American parents From them doubtless he inherited the ultra liberal sentiments which have clung to him through the whole of his long life, and which have subjected him to no small measure of bitter persecution from the civil authorities in former times, and to still bitterer criticism from the Tory Reviewers The same sharp criticism that hurried his friend Keats to an early grave, but served to harden and strengthen him He was distinguished as a Poet and Essayist, when England could boast such living authors as Coleridge and Southey and Wordsworth, and though his life was more eccentric and chequered even than theirs, he has survived them all And from the high and acknowledged position which he has attained in Literature, he can now look back upon the more painful scenes of his earlier history, and review his youthful and almost desperate struggles, with a thankful consciousness of success

The first volume contains the Dramatic and part of the Narrative Poems The second contains the remainder of the Narrative Poems, The 'Sonnets, "Blank Verse "Miscellaneous Poems and "Translations'

Each volume, in addition to the Editor s Introduction and the Author s Introductory Letter, is enriched by copious notes

HINTS ON HEALTH, With familiar Instructions for the Treatment and Preservation of the Skin Hair, Teeth Eyes etc By Wm Edward Coole, M D Member of the Boston Society for Medical Improvement Fellow of the Mass Medical Society, &c Boston Ticknor & Fields, 1857 pp 210

We believe this little book may be made very useful Its teachings as regards the preservation of Health are in general quite sound and such as ought to be as universally followed as they are neglected But in relation to skin diseases, we would suggest that Sugar of Lead even when aided by Prussic acid is not a safe application to Salt Rheum whether eczematous or otherwise and that the *ointment* is not now the best mode of applying sulphur in cases of Itch,

A HORSE IN AND OUT OF A PREDICAMENT—The Lynn News gives an account of a singular adventure of a horse belonging to a Mr Leary, in Woodend which, while feeding, stepped on the covering of an old well and the boards being decayed, his hind feet broke through He was left hanging by his fore feet while his owner ran for assistance but gradually slipped, till he fell a distance of thirty feet to the bottom of the well There was but little water and there he sat, occasionally looking up, as it wondering whether the recent performance were "in the bill"—At length a man ventured to go down to his assistance, tied his feet together, to prevent his struggling and fastened a rope round his body The horse sat very patiently through all these preparations, and was finally drawn up safely, and released, when he resumed his feeding as if nothing unusual had happened

THREATENED DISCLOSURES Mrs Cunningham says that she is determined no longer to submit in silence, to the attacks made upon her, but will shortly make some curious disclosures, in a communication that she is now preparing for publication —*N Y Mirror*

[She can t possibly tell anything more curious than the baby story]

There s a high old deacon up at Waukegan who stands six feet six inches in his stockings, extremely pious methodical, not over benevolent, a man of few words, and a very hard cheek, and although rigid in enforcing family prayers, was never known to say grace in his life His pastor, a rather odd stick himself was one day questioned 'Why Deacon Q never asked a blessing? "Don t really know was the reply, 'but you know he is not much given to asking for anything and it is just like him to reach up and take it'

LOSS OF THE ATLANTIC CABLE. Mr Arthur Stewart writes to the Journal of Commerce that the application of the break by the engineer of the Niagara must have been of necessity, for the engineer knew beforehand that the break would part the cable It appears that after paying out properly 300 miles they then lost 100 miles in going over 35 miles of *ground* The cable, no doubt, encountered one of those strong under ocean currents running across—which would have run away with nearly all they had—and which cause such difficulty in sounding with the deep sea led as to have got those parts of the ocean to be called *unfathomable* It was no doubt deemed wiser to save the balance of the cable, than to expend the whole over two thirds or three quarters of the line —*Traveller*

The question seems to arise, how is the cable *ever* to be successfully laid in those parts of the ocean where such currents prevail?

POISONED.—We learn that the youngest child of Mr. N. W Winslow, residing on Tremont street, in this city, died from having eaten poison on Monday morning. It seems that Sunday afternoon, this child, in company with some two or three other older children, entered Mr Coombs' house, on the same street, while the inmates were all absent, and there eat considerable quantities of the preparation paper for destroying flies. All of the children were taken sick in consequence, but, we learn that, with the exception of this one, who has died, they are recovering.—[Bath Tribune.

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin This Balm gives the scalp a new and healthy action, restores the coloring matter to the roots of the Hair which passes through the Hair and gives it a natural color without the use of, Hair Dye

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off composed of Oils, Alcohol, and other deleterious materials, and all to no use Hair Dyes have been introduced that do not give the hair a natural color, besides being troublesome to use This Balm is not a Dye Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy and after seven years trial has perfected this Balm It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching It cures Dandruff, and Scurf, and when the hair has turned grey it will bring it back to its original color, be it Black, Brown or Auburn It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair and growth will soon appear Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed If you examine gray hair that has been colored for a week, you will find towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color Each hair has a root in the skin, and as of itself a hollow, gray tube, thro' which there is a constant circulation of the pigment from the root When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray To invent a Balm that would produce this pigment has become the study of the proprietor The discovery of the Alpine Hair Balm will do it it will bring the hair to its natural color by making anew the coloring matter in the roots of the hair

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease

THE LUXURY AND PROFIT OF HONEY MAKING.

☞Torrey's Bee Hive.

This Bee Hive thus improved is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement for the proper separation of the swarms and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey are the best adapted in their size, for the market holding from three to six pounds each

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard stiff and cracks but when the water proof this is remedied By the application of this preservative, it remains soft, and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned It will not only make leather water proof, but it like wise softens the leather and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence, recommend it to the public as the best article in the market
